

New Multi Use Games Area Opens at Ewyas Harold Recreation Ground

Ewyas Harold Group Parish Council is delighted to announce the completion of a brand-new Multi Use Games Area (MUGA) at Ewyas Harold Recreation Ground, providing a high-quality sports facility for the local community.

The project has been made possible through the generous funding of Mr Jeremy Hickman of the Pontrilas Sawmills Group, whose significant investment has enabled the construction of this fantastic new facility as well as an extension to the car park area.

The Parish Council would like to express its sincere and heartfelt thanks to Mr Hickman for his support and commitment to community wellbeing and recreation.

The new MUGA offers a versatile, all-weather space suitable for a wide range of sports and activities, including tennis, football, netball, and other recreational games. It will provide opportunities for people of all ages to stay active, develop sporting skills, and enjoy outdoor exercise in a safe and modern environment.

The Parish Council believes these improvements will be valuable long-term assets for Ewyas Harold, encouraging healthy lifestyles, supporting local sport, and bringing the community together.

Once again, Ewyas Harold Group Parish Council extends its sincere thanks to Mr Jeremy Hickman and the Pontrilas Sawmills Group for their generosity in helping to deliver facilities that will be enjoyed by residents for many years to come.
